

GOLD LINE 6722

The zirkon Gold Line 6722 introduces a new format in the field of sixteen-page presses. With the same paper width as the eight-page press, this press has a production output similar to that of a conventional sixteen-page press owing to its double circumference cylinders.

Technical data

Max. production output *:

Tabloid fold operation: 80,000 cph (8 pages)
40,000 cph (16 pages)

Quarter

page fold operation: 70,000 cph (16 pages)
35,000 cph (32 pages)

Web width: 673 (720) mm (26.496 (28.346)")

Printing width: 673 (720) mm (26.496 (28.346)")

Cut-off: 452 (904) mm (17.795 (35.590)")

Printing length: 894 mm (35.197")

Admissible

paper weight*: 30-140 g/m² (20 - 95 lb)

* Actual values may vary depending on the system configuration and printing conditions.

Special features

- ⊙ Improved output as compared to previous model
- ⊙ Direct drive technology
- ⊙ Two different quarter page fold configurations
- ⊙ Semi-automatically plate change device
- ⊙ Cold-set / heat-set operation
- ⊙ Extraordinary printing quality
- ⊙ "Web Protector" - Web safety device
- ⊙ zirkon Data Management System
- ⊙ Collect or non-collect modes available
